Abstract

The purpose of this study is to appreciate Jesus Christ's love of humanity-respect for human life and human dignity-and re-examine its implications for social welfare service, so that it may become a guide for those who are preparing to do medical welfare work. The words and deeds of Jesus Christ described in the four Gospels in the New Testament are the object of this study. Jesus Christ arranged 32 medical services (sick persons, mental disorders, the handicapped, cuts etc.), and 17 social services (material aid and bringing back to life, instruction and counseling etc.)
